Do you have schizophrenia or schizoaffective disorder?

Do you have a child or sibling 14-19 years old?

The ASSET Study

If so, you and your teenager may be eligible to participate in a research study aimed at understanding the social lives, stressors, and thought processes of teenagers.

Both the teenager and involved family members will be compensated for participation!

Participants of this study will:
- Complete 4 office visits over one year
- Complete questionnaires and social tasks

Teens will also be provided with an Android Smartphone for at-home questionnaires.
