If you’re a teen who is interested in becoming more fit, you may be eligible to participate in an innovative research study called FLEX-Brain.

ARE YOU BETWEEN 12 AND 17 YEARS OLD?

FLEX-Brain is a program run by internationally known experts from the University of Pittsburgh and UPMC who are interested in better understanding the relationship between the brain and weight.

INTERESTED?
To participate in the research study, please call 412-383-8136. Youth must have parent or guardian signed permission to participate in this research study.

This intervention will be provided at NO COST and participants will be compensated.
